Council Chambers Streaming AV System Summary

The Village of North Randall seeks quotes for an AV system for the purpose of video livestreaming technology. Please submit bids based on the following specifications:

- 12 Wireless, Rechargeable Microphones
- 2 PTZ 4K cameras with Camera Controllers
- 1 Amplifier
- 1 Presentation Control Switcher
- 1 Touch Screen Digital System Controller
- 4 Ceiling Speakers
- 1 AV equipment rack

It is requested that the output of the existing podium microphone to be integrated in the overall audio installation. All electronics to be neatly and securely installed in a professional AV equipment rack located in the Caucus Room and fed into our Live Streaming Encoder. In addition, rack mounted audio and video monitors to be installed to monitor audio feed, video from cameras and the live stream from the equipment rack in the Caucus Room. Cabling to be neatly installed with permanent labeling on both sides of each cable.
